

Instruction for application

Manual applicator EASY WORK 310ml

A NEW APPLICATOR

is a breakthrough in traditional working principle

REDUCED LENGTH BY HALF

of traditional applicators - easy to use, even in very small spaces

EASY USE OF 100% MATERIAL

due to the new work principle

◀ Push the red plastic parts while pressing the metal piece above the handle

When the applicator has been released install silicone tube ▶

◀ Now you can work with the silicon easily and even in very compact spaces

When the silicon tube is empty, use the first step to release the applicator ▶

◀ Take out the silicone tube and go to the second step for installing of a new one

WARNING: Knife inside the gun, do never put your finger inside it !!!
